

**CITY OF HENDERSON
COMMUNITY DEVELOPMENT DEPARTMENT
STAFF REPORT**

PLANNING COMMISSION DATE: January 29, 2009
AGENDA ITEM NUMBER: 6
APPLICATION NUMBERS: CUP-08-540153
PROJECT DESCRIPTION: Sunrise to Equestrian 230kV Transmission Line Quad Circuit Project

Construction of a major utility (electrical) transmission line and an upgrade to a portion of an existing transmission line for approximately 6 miles in length, originating at the Henderson City Limits north of Weston Hills and terminating at the Equestrian Substation, in the Pittman, Calico Ridge, Foothills, and River Mountain Planning Areas.

STAFF RECOMMENDATION

FINAL APPROVAL, subject to findings of fact and conditions.

BACKGROUND AND PRIOR ACTIONS

Date	Action
	There are no records on file concerning the existing 69kV transmission lines through Weston Hills, Tuscany, and Section 4.
2/11/99	The Planning Commission approved Conditional Use Permit U-15-99 to upgrade the existing 69kV transmission lines to 230/138kV lines at a height

	of 75 feet. No work on the upgrade has commenced and approvals expire on February 11, 2009.
10/7/08- 10/9/08	Applicant held open house meetings to review the application; 10 members of the public attended. Members of the public commented on the ability to relocate the proposed poles within the utility right-of-way and the provision of renderings for further review. The applicant's notes from this meeting are provided in the Planning Commission back-up materials.
11/25/08	Applicant held a meeting with Section 4 Neighborhood Advisory Board with staff in attendance. Section 4 members commented on the impacts to view sheds, the ability to shift pole locations, noise, and the ability to locate the transmission lines underground.

ANALYSIS

The applicant requests conditional use permit approval to construct a major utility (electrical) transmission line and upgrade a portion of an existing transmission line. The proposal is a component of the Sunrise Tap Transmission Line Project that spans two jurisdictions and through federal lands (see overall project map). The applicant's goal is to deliver bulk power and reliable electrical services to Las Vegas Valley residents to ensure sufficient energy levels.

The applicant's intent within the City is to upgrade 3.3 miles of existing 69kV transmission lines to quad-circuit 230/138kV transmission lines through the Weston Hill, Tuscany, and Section 4 neighborhoods. A conditional use permit (U-15-99) approved to upgrade the transmission lines from 69kV to 230/138kV through Tuscany will be superseded with this project. The proposal also includes the construction of 2.45 miles of 230/138kV lines that originate from Section 4's eastern boundary toward the Equestrian Substation.

A 100-foot utility right-of-way that allows the 69kV transmission lines across private property within the neighborhoods will be utilized for the proposed transmission line upgrade. A portion of the existing 100-foot utility right-of-way near Lake Mead Parkway will be shifted to resolve a flood control channel issue. The proposed quad-circuit 230/138kV lines will not require the existing right-of-way to be widened to accommodate the proposal. The new transmission line is aligned through Bureau of Reclamation (BOR) property within the Transmission Line overlay district. The proposal complies with the overlay requirements and the BOR is currently reviewing the proposed alignment.

The quad-circuit 230/138kV single-steel-pole design will replace the existing H-Frame wood structures utilized for the 69kV transmission lines. Cross sections show the tower will be up to 135 feet tall, 100 feet taller than the 35-foot H-Frame structures. The upgrade will accommodate a maximum four circuits per tower structure versus the one currently provided. The tower will be painted a light to medium gray to blend with the sky.

The applicant is requesting a ten-year time limit approval for the conditional use permit. The anticipated in-service date for the project is 2015. The applicant states given the

economic downturn, the ten-year time limit to complete the project will allow the flexibility to respond to market demands and develop an appropriate construction schedule. Additionally, the request will allow sufficient time for advance ordering of materials and the rebuilding of substations that are necessary to accommodate the proposal. Staff supports approval for a five-year time limit. Transmission line projects of similar magnitude in the past were approved by the City for five years.

Multiple meetings and open houses have occurred with the public and impacted property owners to discuss concerns and topics relevant to the proposal. The main consistent concern raised at the meetings was in regards to pole locations on impacted private property. The applicant has noted they will continue to work with impacted property owners to resolve concerns prior to and during construction. A development condition has been added stating the applicant will work with impacted property owners on final pole locations.

Given that the overall project covers multiple jurisdictions, the proposal requires review and approval from the Southern Nevada Regional Planning Coalition (SNRPC). The SNRPC has reviewed the project and supports approval. Clark County has approved the portion of the project within its boundaries. The request complies with Development Code criteria for major utilities.

Staff finds the proposal will not pose an adverse impact to public safety, traffic, utilities, public facilities, or the natural environment. Therefore, staff recommends approval.

RECOMMENDATION

FINAL APPROVAL, subject to findings of fact and conditions.

FINDINGS OF FACT

- A. The proposed use complies with all applicable provisions of the Development Code.
- B. The proposed use is compatible with adjacent uses in terms of scale, site design, operating characteristics (hours of operation, traffic generation, lighting, noise, odor, dust, and other external impacts).
- C. Any significant adverse impacts resulting from this use will be mitigated or offset to the maximum practical extent.
- D. The proposed use will not cause substantial diminution on the value of other property in the neighborhood in which it is located.
- E. Public safety, transportation, and utility facilities and services will be available to serve the subject property, while maintaining sufficient levels of service to existing development.
- F. Adequate assurances of continuing maintenance have been provided.
- G. Any significant adverse impacts on the natural environment will be mitigated to the maximum extent.

PUBLIC WORKS DEPARTMENT CONDITION

1. The acceptance or approval of this item does not authorize or entitle the applicant to construct the project referred to in such application or to receive further development approvals, grading permits or building permits.

FIRE DEPARTMENT CONDITION

The authority for enforcing the International Fire Code is NRS 477.030 and Ordinance Numbers 2649 and 2738 as adopted by the City of Henderson. Fire Department approval is based upon review of the civil improvement or building drawings, not planning documents.

2. Applicant shall obtain a Fire Department permit for blasting (if required) prior to engaging in a hazardous activity or use.

COMMUNITY DEVELOPMENT DEPARTMENT CONDITIONS

3. Approval of this application requires the applicant to comply with all Code requirements not specifically listed as a condition of approval but required by Title 19 of the Henderson Municipal Code, compliance with all plans and exhibits presented and amended as part of the final approval, and compliance with all additional items required to fulfill conditions of approval.
4. This conditional use permit shall lapse five years from the effective date of approval unless the use is established, commenced or extended in accordance with Section 19.2.8.L. of the Development Code.
5. All grading and construction/staging activity must remain completely on-site, or will require the approval of any and all affected adjacent property owner(s).
6. Applicant shall work with impacted private property owners on final transmission line pole locations.

JR/dap

The City of Henderson Conditional Use Permit

Application Form

Project Name Sunrise to Equestrian 230kV Transmission line Quad Circuit Project

Project Location Starting in the northeast corner fo the City of Henderson

Assessor's Parcel Number(s) See Attached List SAM # SEE ATTACHED LIST

Existing Zoning See Attached List Comprehensive Plan Land Use See Attached List Gross Acres 135 acre feet

Intent of this Request The population growth and associated residential and commercial development has resulted in a significant increase in demand for electricity, because of this, the approval of the proposed Sunrise Transmission Line Project will allow NV Energy to continue to provide reliable electrical service to support orderly and physical growth and development throughout this area.

To: City of Henderson Community Development Department

Subject: Nevada Power Company, d/b/a NV Energy, Acceptable Authorized Signatures

Dear Planning Staff:

A signature authorization letter was provided to Stephanie Garcia-Vause, Director of Community Development, on May 5, 2008 from Paul Kaleta that provided the following.

As of the date of issuance of this letter, Herbert Goforth is an Executive, Technical Services & Support of both SPPC and NPC. As of the date of issuance of this letter, Executives are authorized by senior management to sign contract commitments, expenditure approvals and disbursements on behalf of the Company up to \$1,000,000.

As of the date of issuance of this letter, James R. Saavedra is Director, Land Services for both SPPC and NPC. As of the date of issuance of this letter, Directors are authorized by senior management to sign contract commitments, expenditure approvals and disbursements on behalf of the Company up to \$500,000.

In addition to the above authority, certain transactions binding the Company require signature by leadership employees, as follows:

Land Services Director signature or higher is required for:

- (a) Relinquishments of easement granted on private property or rights contained in government patent rights;
- (b) Grants of easements; and
- (c) Land use permits required by local municipalities.

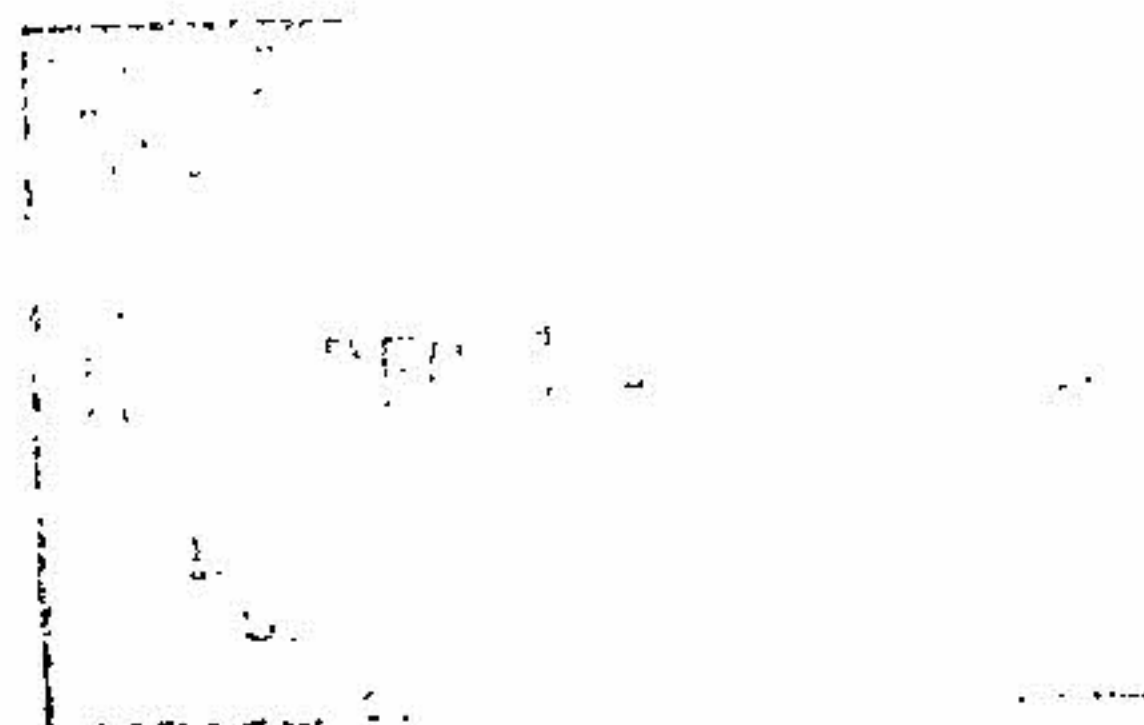

Mr. Kaleta's authorization letter is in effect until May 5, 2009.

If you have any questions or desire any additional information please contact me at 402-2620.

Respectfully yours,

A handwritten signature in black ink, appearing to read "Thomas Dombrowski".

RE: Justification Letter for a Conditional Use Permit for the Sunrise to Equestrian 230 kV
Quad-Circuit Project

To Whom It May Concern:

NV Energy is requesting a Conditional Use Permit for the portion of the proposed Sunrise Tap Transmission Line Project which is located in Henderson.

OVERALL PROJECT DESCRIPTION

The Sunrise Tap Transmission Line Project has several components including 1) construction of a new double-circuit 500kV transmission line between the Harry Allen-Mead (HAM) line and the Sunrise Substation, 2) upgrading a portion of the existing Las Vegas #3 (LV#3) 69kV transmission line to quad-circuit 230kV/lower voltage within the existing LV#3 corridor from Sunrise Substation southeast toward the Equestrian Substation, 3) constructing a new quad-circuit 230kV/lower voltage transmission line from the existing LV#3 corridor south to Equestrian Substation on Bureau of Reclamation (BOR) land within a designated utility corridor, 4) upgrading a portion of the existing Las Vegas #1 (LV#1) 69kV transmission line to quad-circuit 230kV/lower voltage between the Sunrise Substation and Clark Substation, and 5) upgrading the existing transmission lines between the Sunrise Substation and the Winterwood Substation to double circuit 138kV and quad-circuit 138/69kV. The National Environmental Policy Act review process, under the direction of the Bureau of Reclamation (BOR), is presently underway as a portion of this project crosses federal lands under their jurisdiction.

PORTION OF THE OVERALL PROJECT LOCATED IN HENDERSON

The portion of the above described project crossing into the jurisdiction of the City of Henderson involves only the following components:

2) upgrading a portion of the existing Las Vegas #3 (LV#3) 69kV transmission line to quad-circuit 230kV/lower voltage within the existing LV#3 corridor from Sunrise Substation southeast toward the Equestrian Substation.

3) constructing a new quad-circuit 230kV/lower voltage transmission line from the existing LV#3 corridor south to Equestrian Substation on BOR land within a designated utility corridor.

CITY OF HENDERSON CONDITIONAL USE PERMIT JUSTIFICATION REQUIREMENTS

a. Does the proposed use comply with all applicable provisions of the Development Code?

This project is in full compliance with all applicable City of Henderson's Development Code provisions. This project does not fall into the category of a "Project of Significant Impact" as defined in the City of Henderson's Development Codes.

Because this project does cover multiple jurisdictions, it was presented to the Southern Nevada Regional Planning Coalition (SNRPC) on September 15, 2008. Attached, please find a "Letter of Conformity" from the SNRPC, dated September 16, 2008.

b. Is the proposed use compatible with adjacent uses in terms of scale, site design, operating characteristics, hours of operation, traffic generation, lighting, noise, odor, dust and other external impacts?

The project will involve the replacement of an existing 69 kV transmission line with a new 230 kV transmission line within the same right of way corridor across private property. The newly proposed alignment is across BOR land and is currently under review by the BOR.

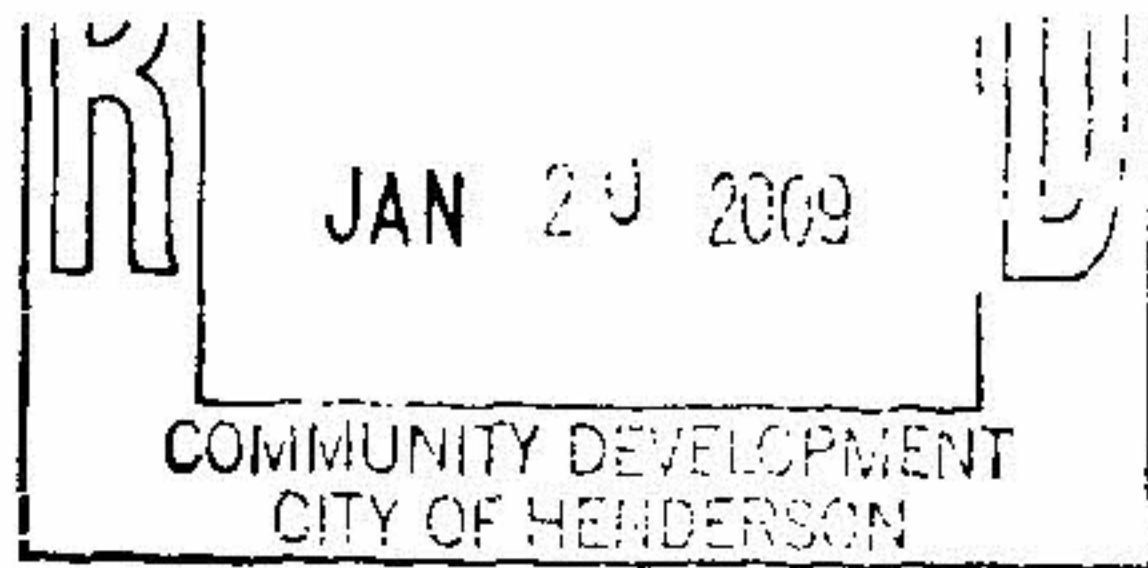

No new or different effects will be introduced by the installation of the proposed 230 kV transmission line on the adjacent land uses with regard to site design, operating characteristics, hours of operation, traffic generation, lighting, noise, odor, dust or other external impacts as the new transmission line will be installed in the same corridor as the currently existing line. The newly proposed poles are anticipated to be approximately 50 to 85 feet taller than the existing structures within the corridor presenting a different scale. The proposed structures will be monopole versus the existing structures which are H-frame.

c. Will public safety, transportation and utility facilities and services be available to serve the subject property while maintaining sufficient levels of service to existing Development?

All public safety regulations in accordance with standard design and construction protocol will be employed. The existing 69 kV transmission line has maintained access roads which will continue to be utilized for the proposed 230 kV transmission line project. No significant impacts to area transportation facilities are anticipated. The proposed 230 kV transmission line project will not require the use of additional facilities such as water or sewer as it is an inert, unmanned facility. The proposed 230 kV transmission line will be constructed prior to the decommissioning of the existing 69 kV line to ensure sufficient levels of service to existing development.

d. Are there adequate assurances of continuing maintenance being provided?

NV Energy takes pride in the continuing maintenance of all our facilities. We have a full-time maintenance department to ensure the proper maintenance and repair of all facilities.

CUP -08-540153

e. Will any significant adverse impacts on the natural environment be mitigated to the maximum practical extent?

In order to reduce any adverse impacts to the natural environment to the greatest extent feasible, NV Energy proposes to remove an existing 69 kV transmission line and re-use that existing easement corridor for the placement of the new 230 kV transmission line. This will ensure the least impact possible to the natural environment.

In the area where a new line is being proposed, the 230 kV transmission line has been sited within a BOR designated utility corridor and the appropriate environmental analysis in the form of an Environmental Assessment in compliance with National Environmental Policy Act (NEPA) requirements is being finalized. All appropriate mitigation measures have been identified in this process and are planned to be implemented in accordance with the Environmental Assessment.

f. Will the proposed use exceed the capacity of public services that cannot be mitigated?

The proposed project is a utility and is not anticipated to need public services.

PUBLIC INVOLVMENT & OPEN HOUSE MEETINGS

Multiple open house meetings were held for this project, one of which was on October 8, 2008 in Henderson. Individual notifications were sent out to property owners within 1,000 feet of the existing easement corridor that NV Energy intends to use for this proposed project within the Henderson area. This existing corridor runs through the Section 4 neighborhood. Approximately 10 members of the public attended the open house.

On November 25, 2008 NV Energy representatives met with the Chairman and Secretary of the Section 4 Neighborhood Advisory Board at their request, along with two members of the City of Henderson Planning Department to further discuss the proposed project. As a result of this meeting, NV Energy provided the Secretary of the Advisory Board with project exhibits and more information for further review and discussion at their next scheduled Advisory Board meeting.

RELATED CONDITIONAL USE PERMIT

A portion of the LV#3 transmission line described herein runs through the Tuscan neighborhood and currently has a separate Conditional Use Permit (U-15-99, Palm City Transmission Line Modification, Dated 2/11/99) that is about to expire. In lieu of extending that Conditional Use Permit, this application is intended to include the entire LV#3 transmission line segment as described from the city boundary of Henderson southeast to Equestrian Substation, including the portion through Tuscan which was held under U-15-99.

TERM

NV Energy is requesting that the Conditional Use Permit be issued with expiration period not less than 10 years. This would be consistent with the 10-year duration approved by Clark County.

CUP - 08 - 540153

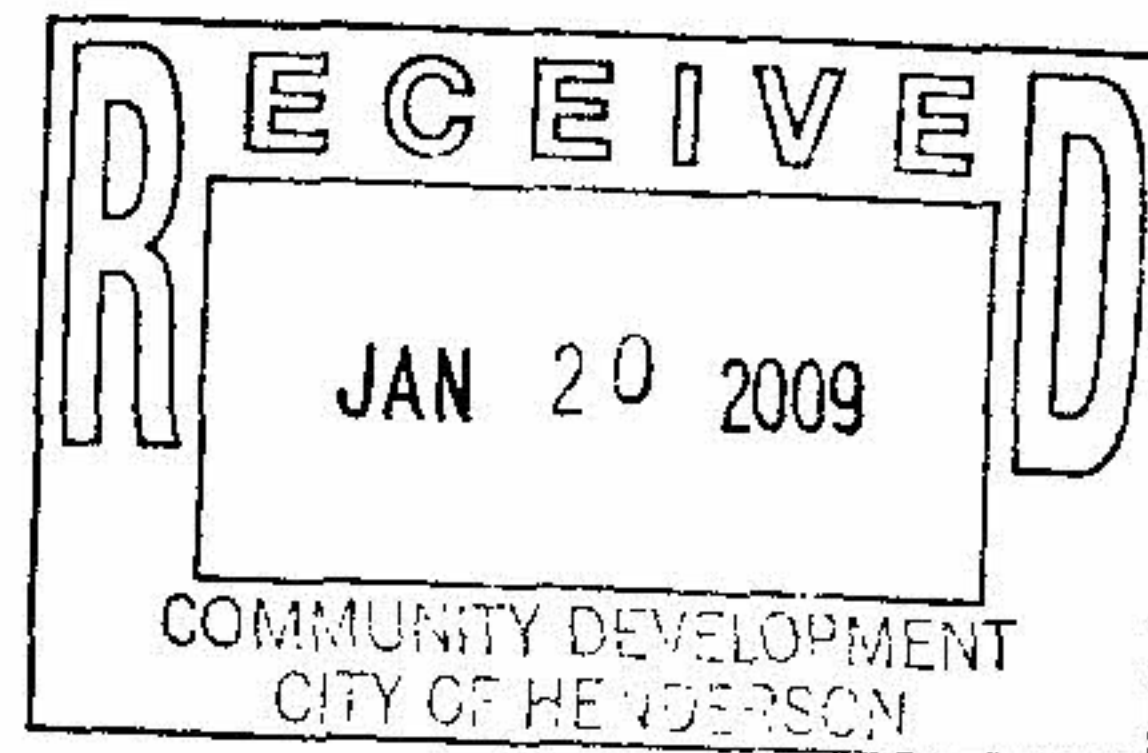

- Due to the current economic climate, flexibility in project design and scheduling is necessary.
- Due to the size and nature of this project, the construction will need to be completed in phases.
- Some of this equipment requires a long lead time from the date it's ordered to the date it's delivered.

CONCLUSION

It is with this submittal, that NV Energy respectfully requests the consideration and approval of a Conditional Use Permit for the construction of the Sunrise Tap Transmission Line Project in the City of Henderson, Nevada. If you should have any further question regarding this matter please call me at 702.402.2620.

Sincerely,

Thomas Dombrowski

Re: Conformity Finding – Nevada Power Sunrise Tap Project

In accordance with the Plan Amendment Review Process, adopted by the Coalition Board on January 24, 2002, the Planning Directors reviewed Nevada Power's Sunrise Tap Project on September 15, 2008.

The Planning Directors are pleased to report that the project substantially conforms and furthers the Southern Nevada Policy Plan. According to the Plan Amendment Review Process, this finding represents final action by the Southern Nevada Regional Planning Coalition unless a member of the Coalition Board requests a formal review within ten (10) days of receipt of this notice.

If you believe a formal review is necessary, please contact the Coalition Secretary, Jennifer Olsen, at 267-1530 to request that this item be put before the Coalition Board.

ATTENTION: Jason Rogers
City of Henderson Community Development Department

HAND DELIVERED

RE: CUP-08-540153 Sunrise to Equestrian 230kV Transmission Line Quad Circuit Project

Response to the ADDITIONAL INFORMATION FORM (Copy attached for your reference)

Item # 1 - The estimated in service date for this project is 2015, meaning construction will need to start early 2014. Prior to start of construction NV Energy will be working with the property owners to document the uses that will be permitted within the transmission corridor and resolving any existing conflicts. If electrical load growth accelerates in the Las Vegas Valley and the schedule for this project is accelerated, NV Energy will convey that information to the City and the residents adjacent this project.

Item # 2 - See attached photos as requested.

Item # 3 - NV Energy does not typically ask for expiration dates longer than the City Municipal Code grants; however, for the following reasons NV Energy would like to request a 10 year expiration date.

1. Due to the uncertain future of development in the Las Vegas Valley it is impossible to predict the timing for the need of this project.
2. The fact that this project is very large and will need to be phased. NV Energy must rebuild three substations and must work around peak demand times to avoid outages
3. Some of the materials, like transformers, must be ordered two to three years in advance.
4. Clark County granted a 10 year expiration timeframe and NV Energy would like the dates to be co terminus.

Item # 4 - See attachment for both # 4 and # 5.

Item # 5 - See attachment for both # 4 and # 5.

Item # 6 - Based on our Use Permit / Project scope, all of the existing structures in the corridor thru the City of Henderson will be replaced with the proposed transmission structure, thereby providing a uniform look to the new transmission line. The rebuild will accommodate the construction of two new 230kV circuits and two 138/69kV circuits on the structure.

Item # 7 - A set of 11" X 17" Plans and a set of 24" X 36" Plans identifying the preliminary pole locations through the Section 4 neighborhood, was hand delivered to Jason Rogers by Randy Cagle at the Application Review Meeting held on 12/23/08.

Item # 8 - The proposed transmission line will use the existing 100 foot corridor thru the areas of private ownership. There will be one area near Lake Mead Parkway where the corridor will need to be shifted to resolve the issue between a flood control channel and an existing NV Energy pole. NV Energy will work with the owners to realign this corridor but the width will remain 100 feet.

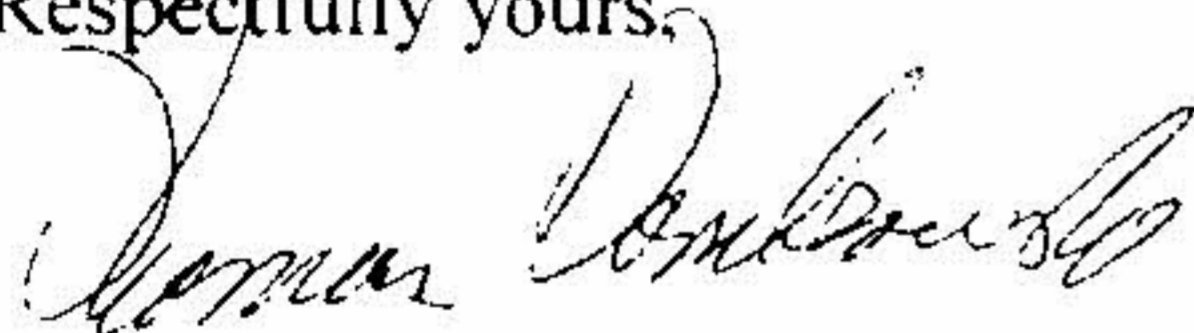

Item # 9 - The proposed transmission structure is designed for 4 circuits (quad structure). NV Energy proposes 2- 230kV circuits with 2 - 138/69kV circuits below the 230kV circuits. See the structure detail (230/138kV).

Item # 10 - See the attachment.

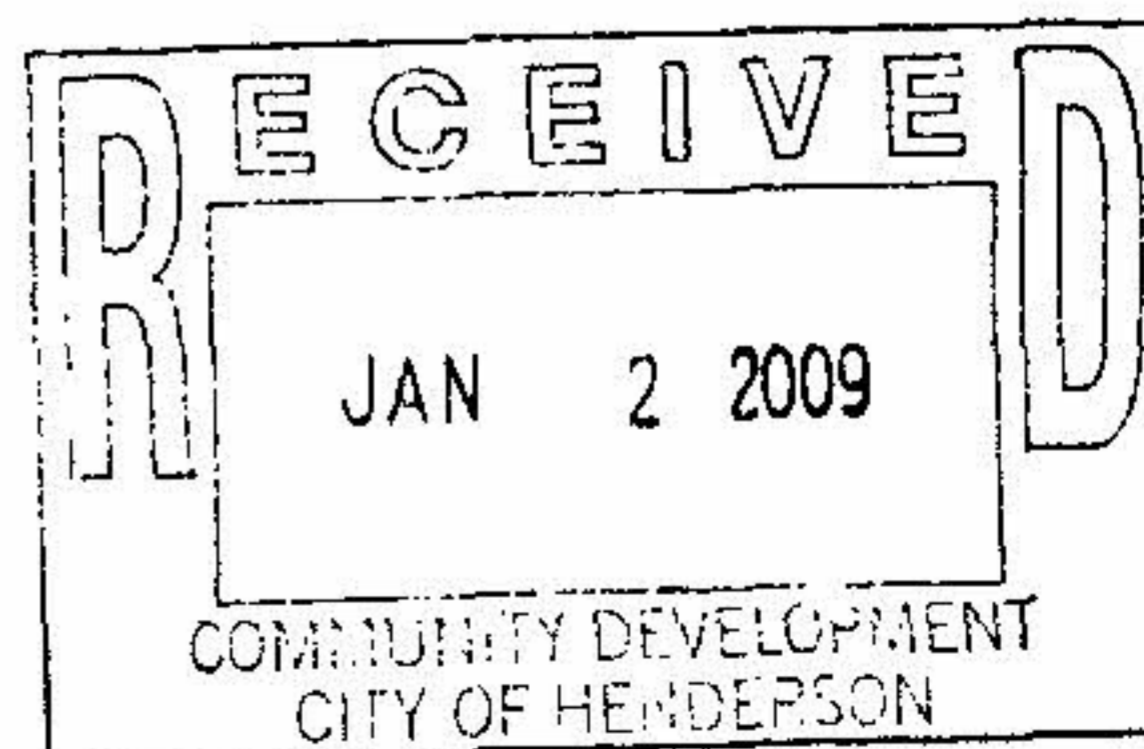

Item # 11 - The attached 11" x 17" revised "Sunrise Tap Project Use Permitting" Map shows that we are within the final West-wide Energy Corridor, data released on 11-20-08 in the Programmatic EIS (Environmental Impact Study). See the note at the bottom of this map. This corridor, as shown, is from the GIS file of the EIS and is currently in the process of final approval.

Item # 12 - NV Energy will **not** be using blasting connectors within the City of Henderson.

Respectfully yours,

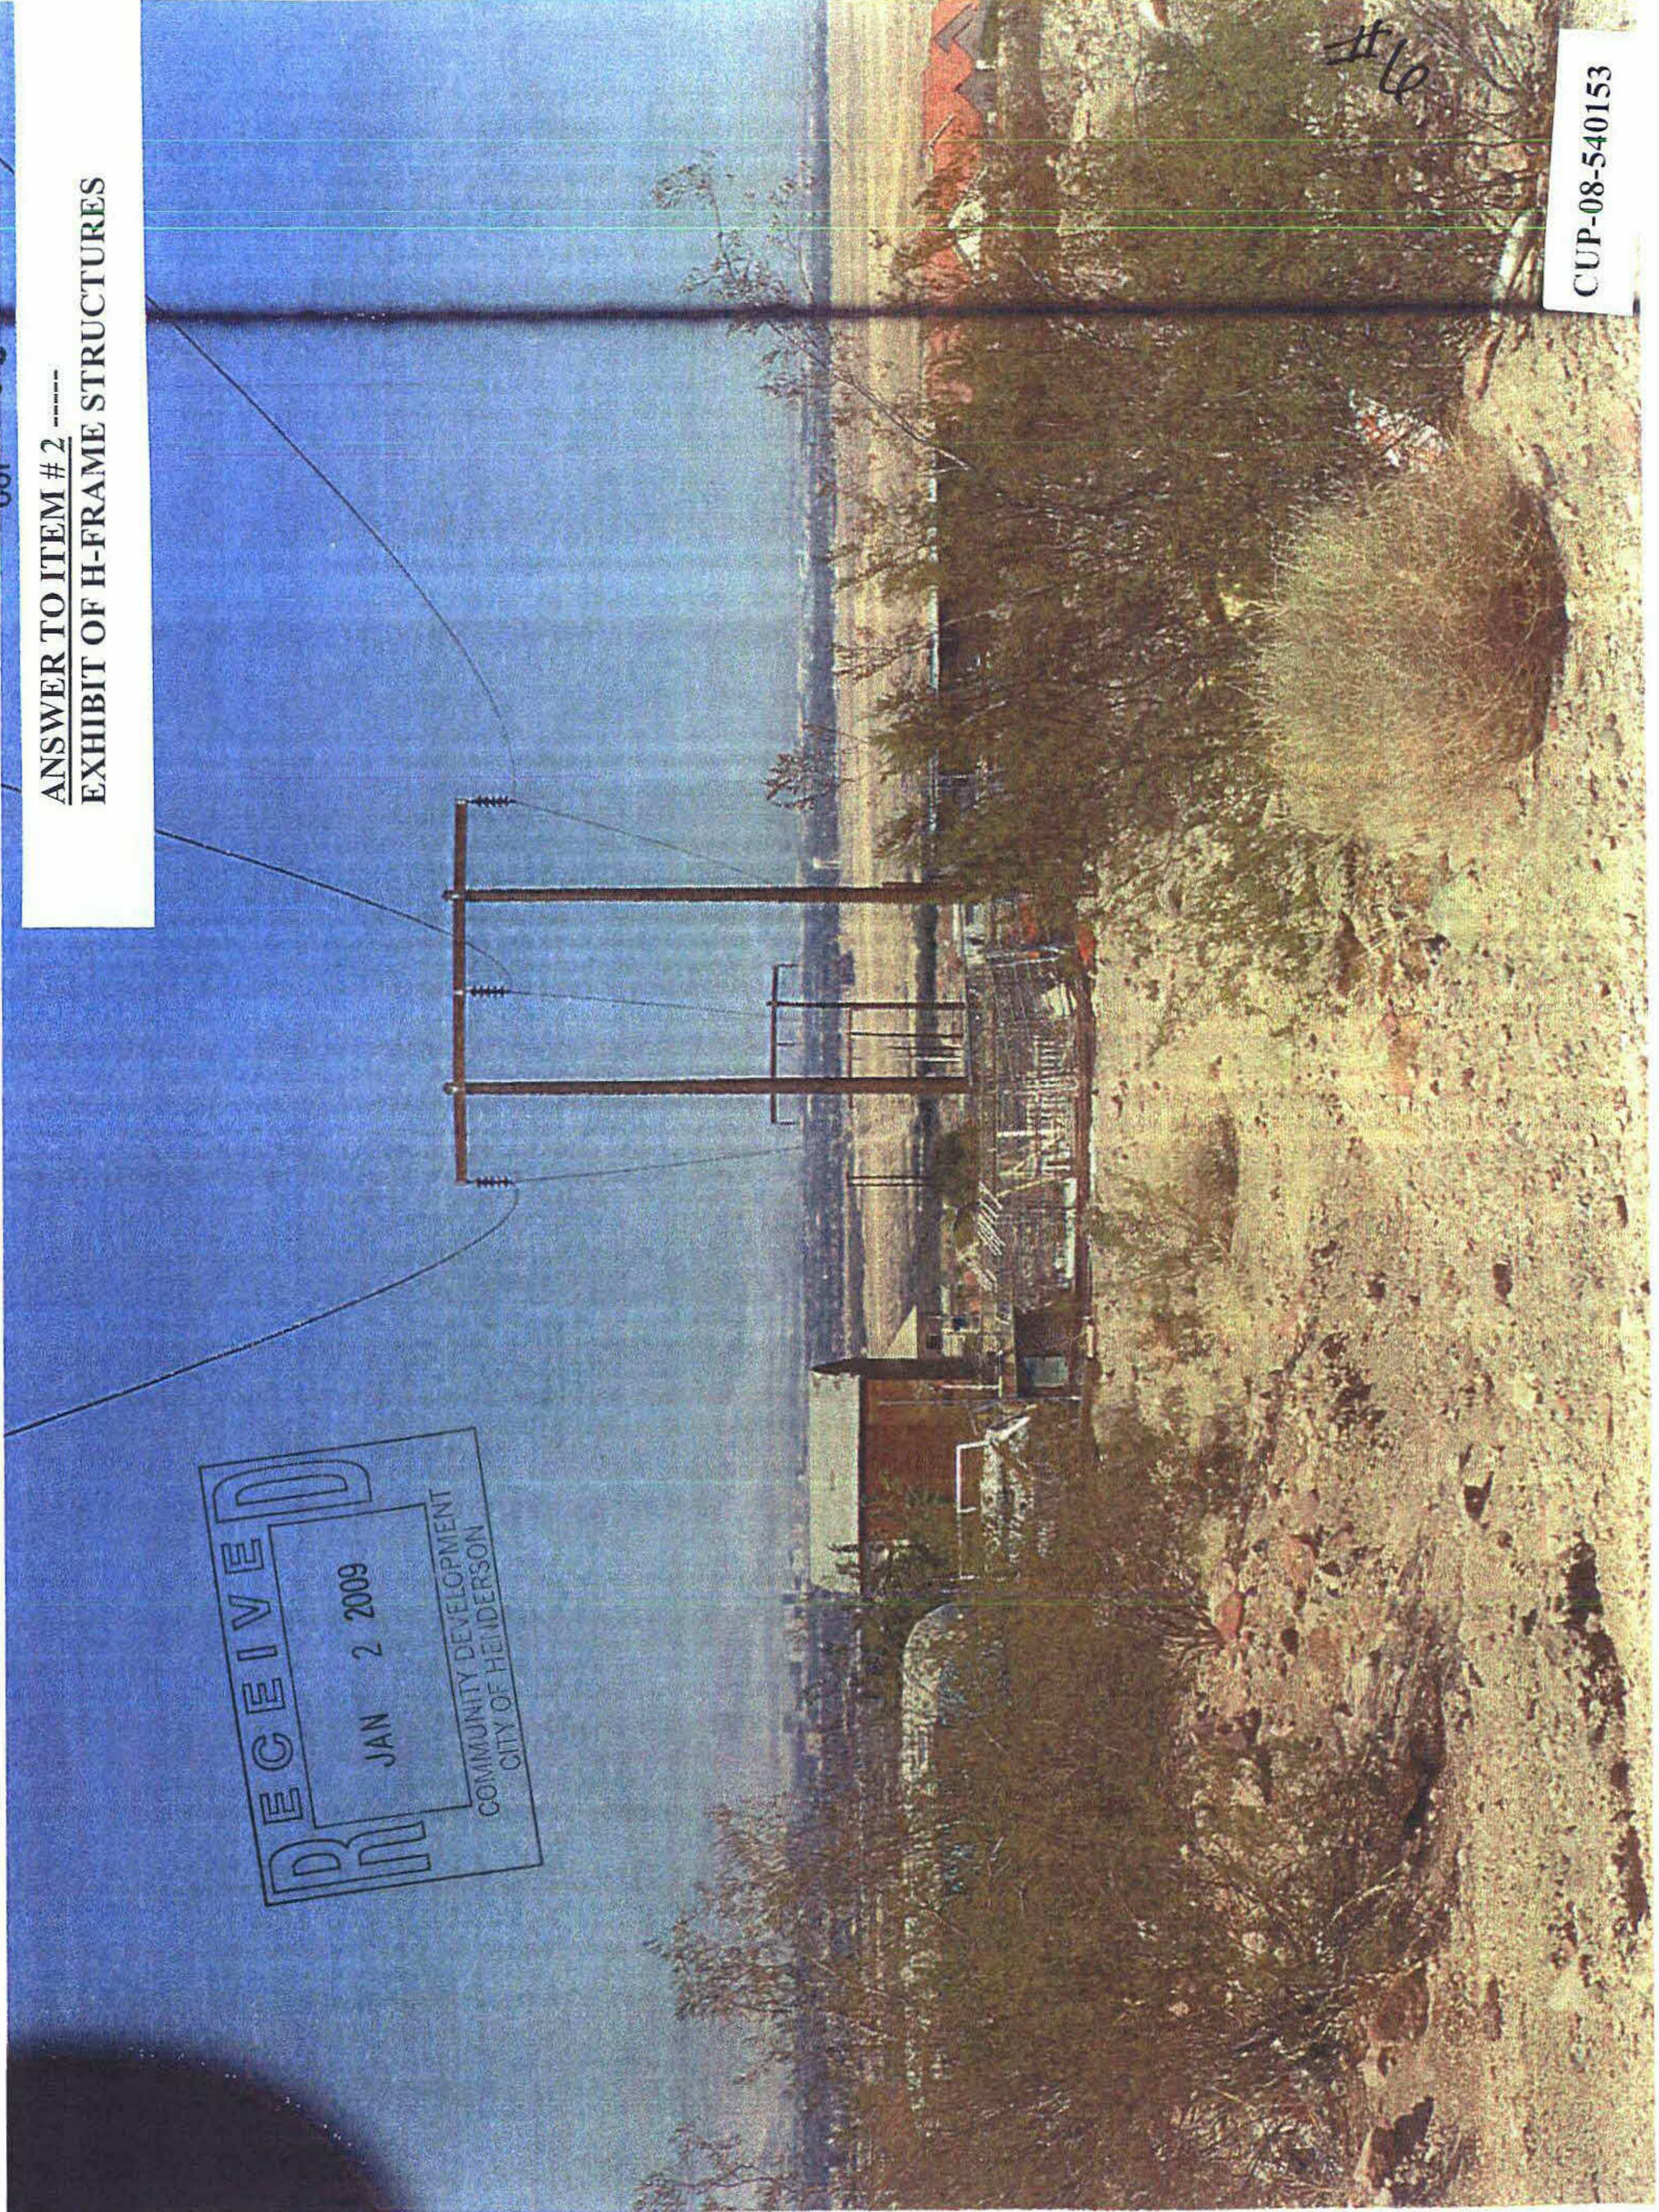

Thomas Dombrowski
Sr. Land Use Consultant

UPDATED ON 12/9/08 **

To: Nancy Myers, Section 4 Advisory Board Secretary

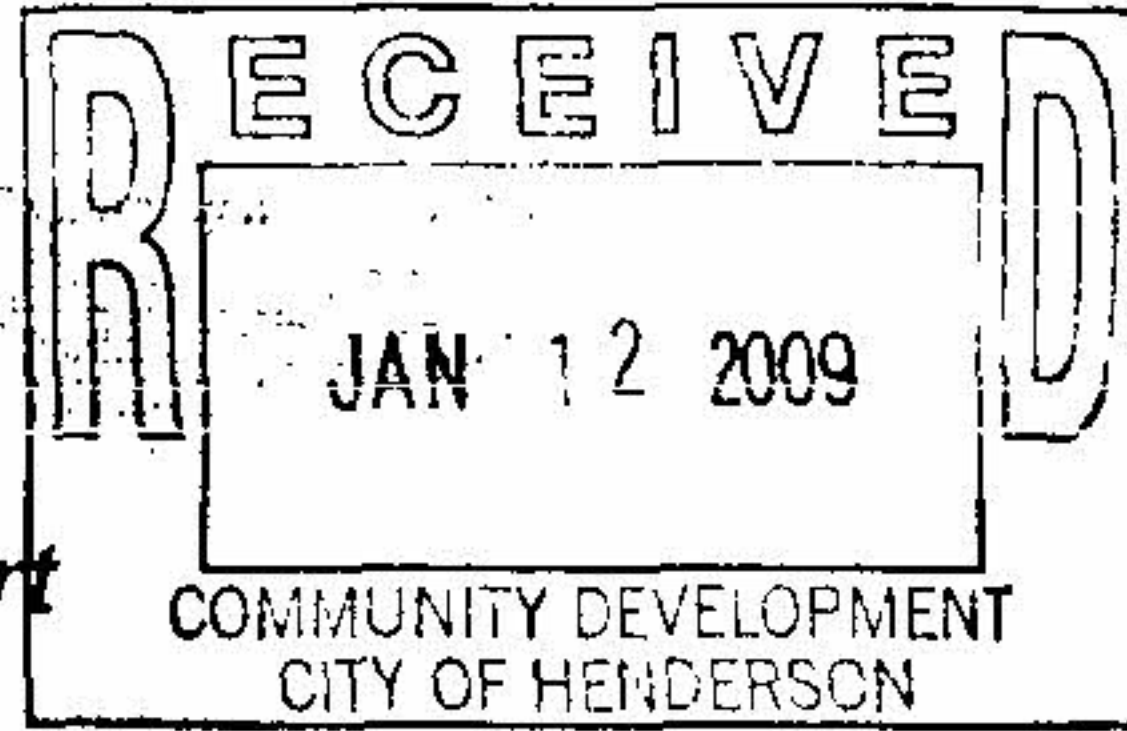

It was a pleasure to meet with you and Frank Moorehead last Tuesday. Enclosed, please find the Exhibits and copies of the Comment Sheet you have requested.

In addition to meeting several Section 4 residents at the Open House held on October 8th, the following correspondence has occurred with Section 4 residents / property owners:

Please note that our Transmission Engineer has recently indicated that he can **preliminarily accommodate some new pole location adjustment "requests" (also see the plan).

Name	Correspondence
Tim Topolski APN 179-04-701-019	Send him copy of "before" & "after" renderings and map of photo locations as requested.
Lance & Kelly McDade 731 Fife St.	Received Comment Sheet from each requesting to move proposed Pole # 24577 toward Fife St. as much as possible. Our Transmission Engineer can accommodate this request.
Judith & Lowell Haines 723 Fife St.	Received Comment Sheet from each requesting to also move proposed Pole # 24577 closer to Fife St. Our Transmission Engineer can accommodate this request.
W.H. & Polly Wilson 1111 Geneva	Received Comment Sheet from them requesting to move proposed Pole # 24571 to the same location of the existing pole is on his property. ** Our Transmission Engineer can move the proposed pole to <u>almost</u> the same location as the existing pole. Also send them copy of "before" & "after" renderings, map of photo locations, and Figure 2.2-1 (overall Sunrise Tap Transmission Lines project map) as requested.
Laura Kuveke 646 Emden	Send her copies of "before" & "after" renderings and map of photo locations as requested.
Timari Hopkins 912 Essex	Received Comment Sheet requesting information. Send "before" & "after" renderings and map of photo locations. Also, contacted was made regarding her request for an EMF reading beneath the existing lines near her home.

Thomas Dombrowski, Sr. Land Use Consultant, NV Energy

Project Status Report

NV ENERGY

Components: Sunrise Use Permitting (PO 0001019968 / NPC-164-BG005)

Report Period: Public Open Houses (October 7, 8 and 9, 2008)

ECI Project Manager: Crystal Kuntz

Deliver Copies to: Tom Dombrowski, Sr. Land Use Consultant

PUBLIC OPEN HOUSE SUMMARY

Three public open houses were scheduled for the purpose of reviewing the proposed Sunrise Tap project components with the public and soliciting input from the public with regard to the proposed project. Six neighborhoods of potential effect were identified within three geographic areas along the Sunrise to Clark, Sunrise to Equestrian, Sunrise to Winterwood and Sunrise Tap alignments. Nearly 1700 residents within these six communities were sent a personal invitation to attend a public open house in their area to present comments and hear information on the proposed project.

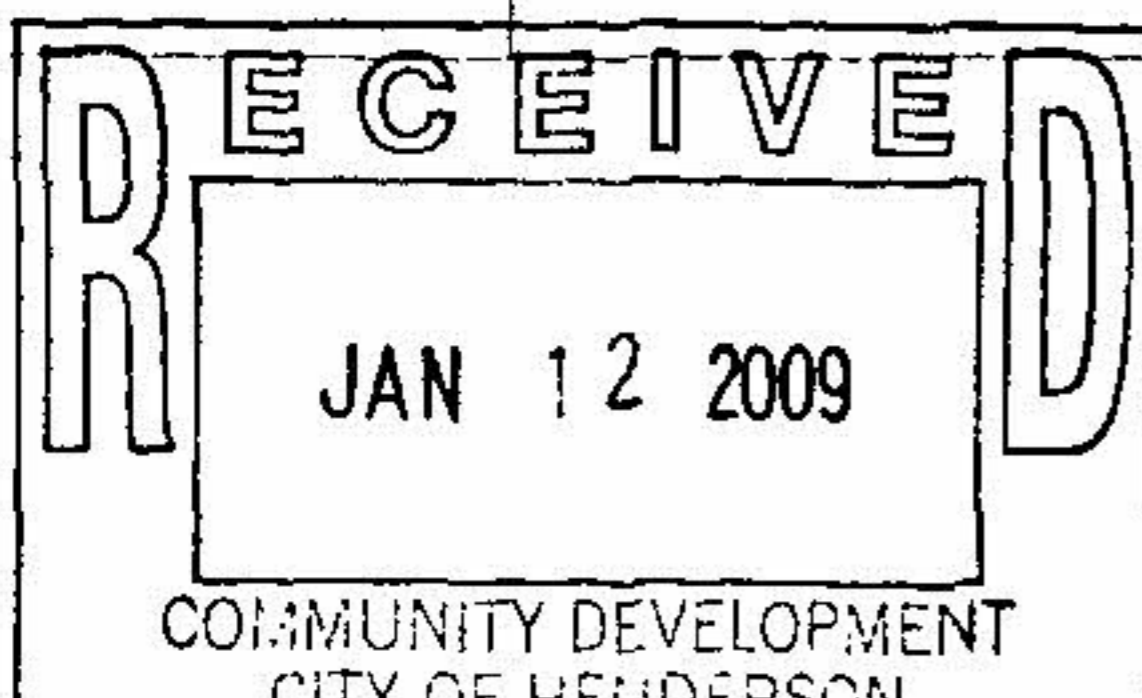

The first public open house was held Tuesday evening, 10/7/08, from 4:30 to 6:30 pm at Cunningham Elementary school to address any concerns from two neighborhoods traversed by the proposed Sunrise to Clark; Sunrise to Equestrian and Sunrise Tap alignments. This meeting was attended by seven members of the public. The second public open house was held Wednesday evening, 10/8/08, from 4:30 to 6:30 pm at the Henderson Public Library to address any concerns from two neighborhoods traversed by the proposed Sunrise to Equestrian alignment. This meeting was attended by nine members of the public. The third public open house was held Thursday evening, 10/9/08, from 4:30 to 6:30 pm at the Whitney Public Library to address any concerns from two neighborhoods traversed by the proposed Sunrise to Equestrian alignment. There were no members of the public that elected to attend this meeting.

Any questions regarding the alignment were addressed using maps and photographic simulations of the proposed project. Other visual aids included plan-views of the proposed structure locations that were presented to area landowners for discussion purposes. Any structure location adjustment requests made by area residents were noted for consideration in final design. At each of the public open house meetings, various requests were made for copies of the

materials presented at the meeting including maps, photographic simulations, EMF literature and meter readings. In general, verbal comments received at these meetings included concerns over EMF, the location of the structures and their associated impact on view and property value. A total of three formal comments were received during the public open houses

The following provides a summary of information issued to date in response to formal comments or requests for further information:

Name	Response Request	NV Energy Response	Delivery	Open House Attendance
Wassmann	Verify that the proposed line will stay in same corridor though Section 4.	Verified that this is currently the plan but that further public input or agency action could affect final outcome.	Via Mail (10/11/08)	N/A
Shreeve	Before and After photographic simulation along Dodd Street	Copy of simulation and letter provided as requested.	Via Mail (10/1/08)	N/A
Topolski	Maps and photographic simulations to demonstrate impact of new line in vicinity of Geneva and Milan.	Copy of simulations and map provided as requested.	Via e-mail (10/9/08)	N/A
Faulk	Copy of "Sheet 8" showing 30% design structure locations within the area of the Cunningham Public Open House	Pending <i>DONE</i>	Pending	10/8/08 at Cunningham Elementary School
Wilson	Copies of the exhibits from the Henderson Public Open House	Copies of the map and photographic simulations were sent as requested	Via mail (10/11/08)	10/8/08 at the Henderson Public Library
Paulson	Copy of EMF literature	Provided copy of the standard issued NPC EMF brochure	Via mail (10/11/08)	10/7/08 at Cunningham Elementary School
Hopkins	Copies of maps and photographic simulations from the Public Open House. Also requested that an EMF reading be conducted beneath the existing lines near her home.	Copies of the map and photographic simulations were sent as requested. Pending - SENT REQUEST TO STAN VIA E-MAIL 10/13	Via e-mail (10/11/08) Pending	10/8/08 at the Henderson Public Library
Kuveke	Copies of maps and photographic simulations from the Public Open House.	Copies of the map and photographic simulations were sent as requested.	Via e-mail 10/11/08	10/8/08 at the Henderson Public Library

12/1/08

UPDATED ON 1/13/09 **

To: Nancy Myers, Section 4 Advisory Board Secretary

It was a pleasure to meet with you and Frank Moorehead last Tuesday. Enclosed, please find the Exhibits and copies of the Comment Sheet you have requested.

In addition to meeting several Section 4 residents at the Open House held on October 8th, the following correspondence has occurred with Section 4 residents / property owners:

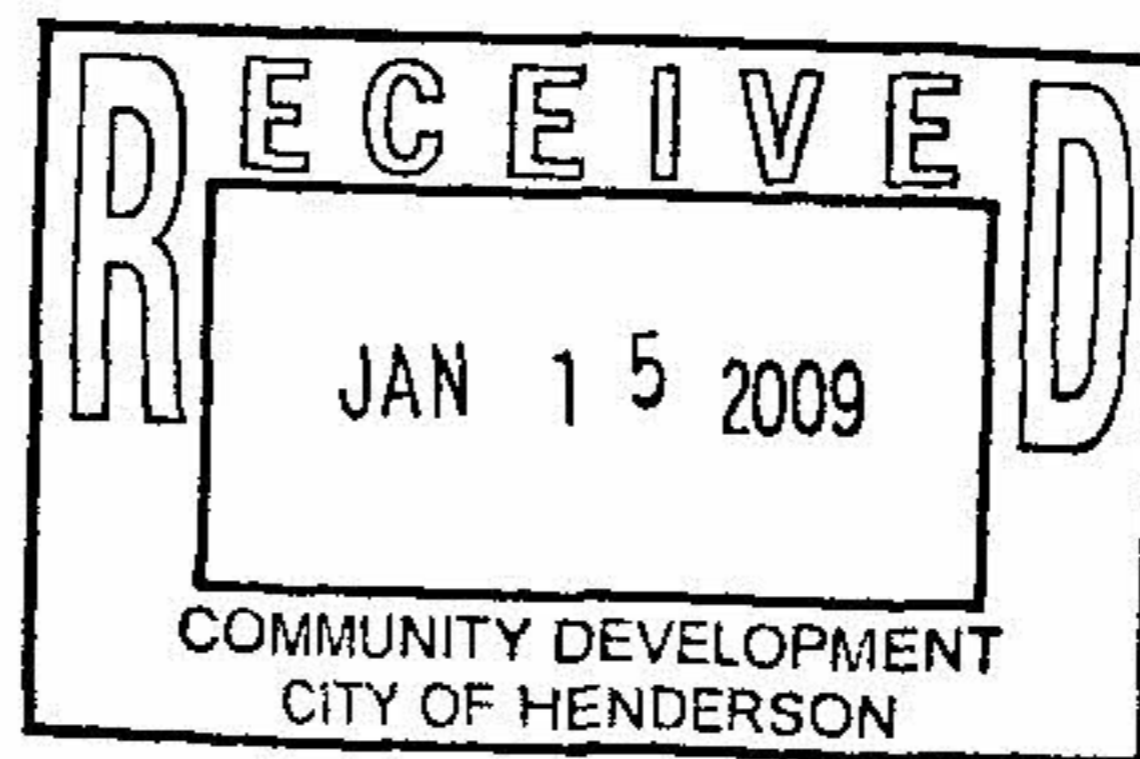

Please note that our Transmission Engineer has recently indicated that he can **preliminarily accommodate some new pole location adjustment "requests" (also see the plan).

Name	Correspondence
Tim Topolski APN 179-04-701-019	Send him copy of "before" & "after" renderings and map of photo locations as requested.
Lance & Kelly McDade 731 Fife St.	Received Comment Sheet from each requesting to move proposed Pole # 24577 toward Fife St. as much as possible. Our Transmission Engineer can accommodate this request.
Judith & Lowell Haines 723 Fife St.	Received Comment Sheet from each requesting to also move proposed Pole # 24577 closer to Fife St. Our Transmission Engineer can accommodate this request.
W.H. & Polly Wilson 1111 Geneva	Received Comment Sheet from them requesting to move proposed Pole # 24571 to the same location of the existing pole is on his property. ** Our Transmission Engineer can move the proposed pole to almost the same location as the existing pole. Also send them copy of "before" & "after" renderings, map of photo locations, and Figure 2.2-1 (overall Sunrise Tap Transmission Lines project map) as requested.
Laura Kuveke 646 Emden	Send her copies of "before" & "after" renderings and map of photo locations as requested.
Timari Hopkins 912 Essex	Received Comment Sheet requesting information. Send "before" & "after" renderings and map of photo locations. Also, contacted was made regarding her request for an EMF reading beneath the existing lines near her home.

Thomas Dombrowski, Sr. Land Use Consultant, NV Energy

Name	Correspondence
Wassmann	Verified that the proposed line will stay within the same easement corridor through Section 4 as proposed now.
Richard Krueger	E-mail sent with Before & After Renderings, Power Pole Detail, and answered questions on project timeline and easement width. Follow up questions answered regarding line placement, voltage, and problems with undergrounding.

Thomas Dombrowski, Sr. Land Use Consultant, NV Energy

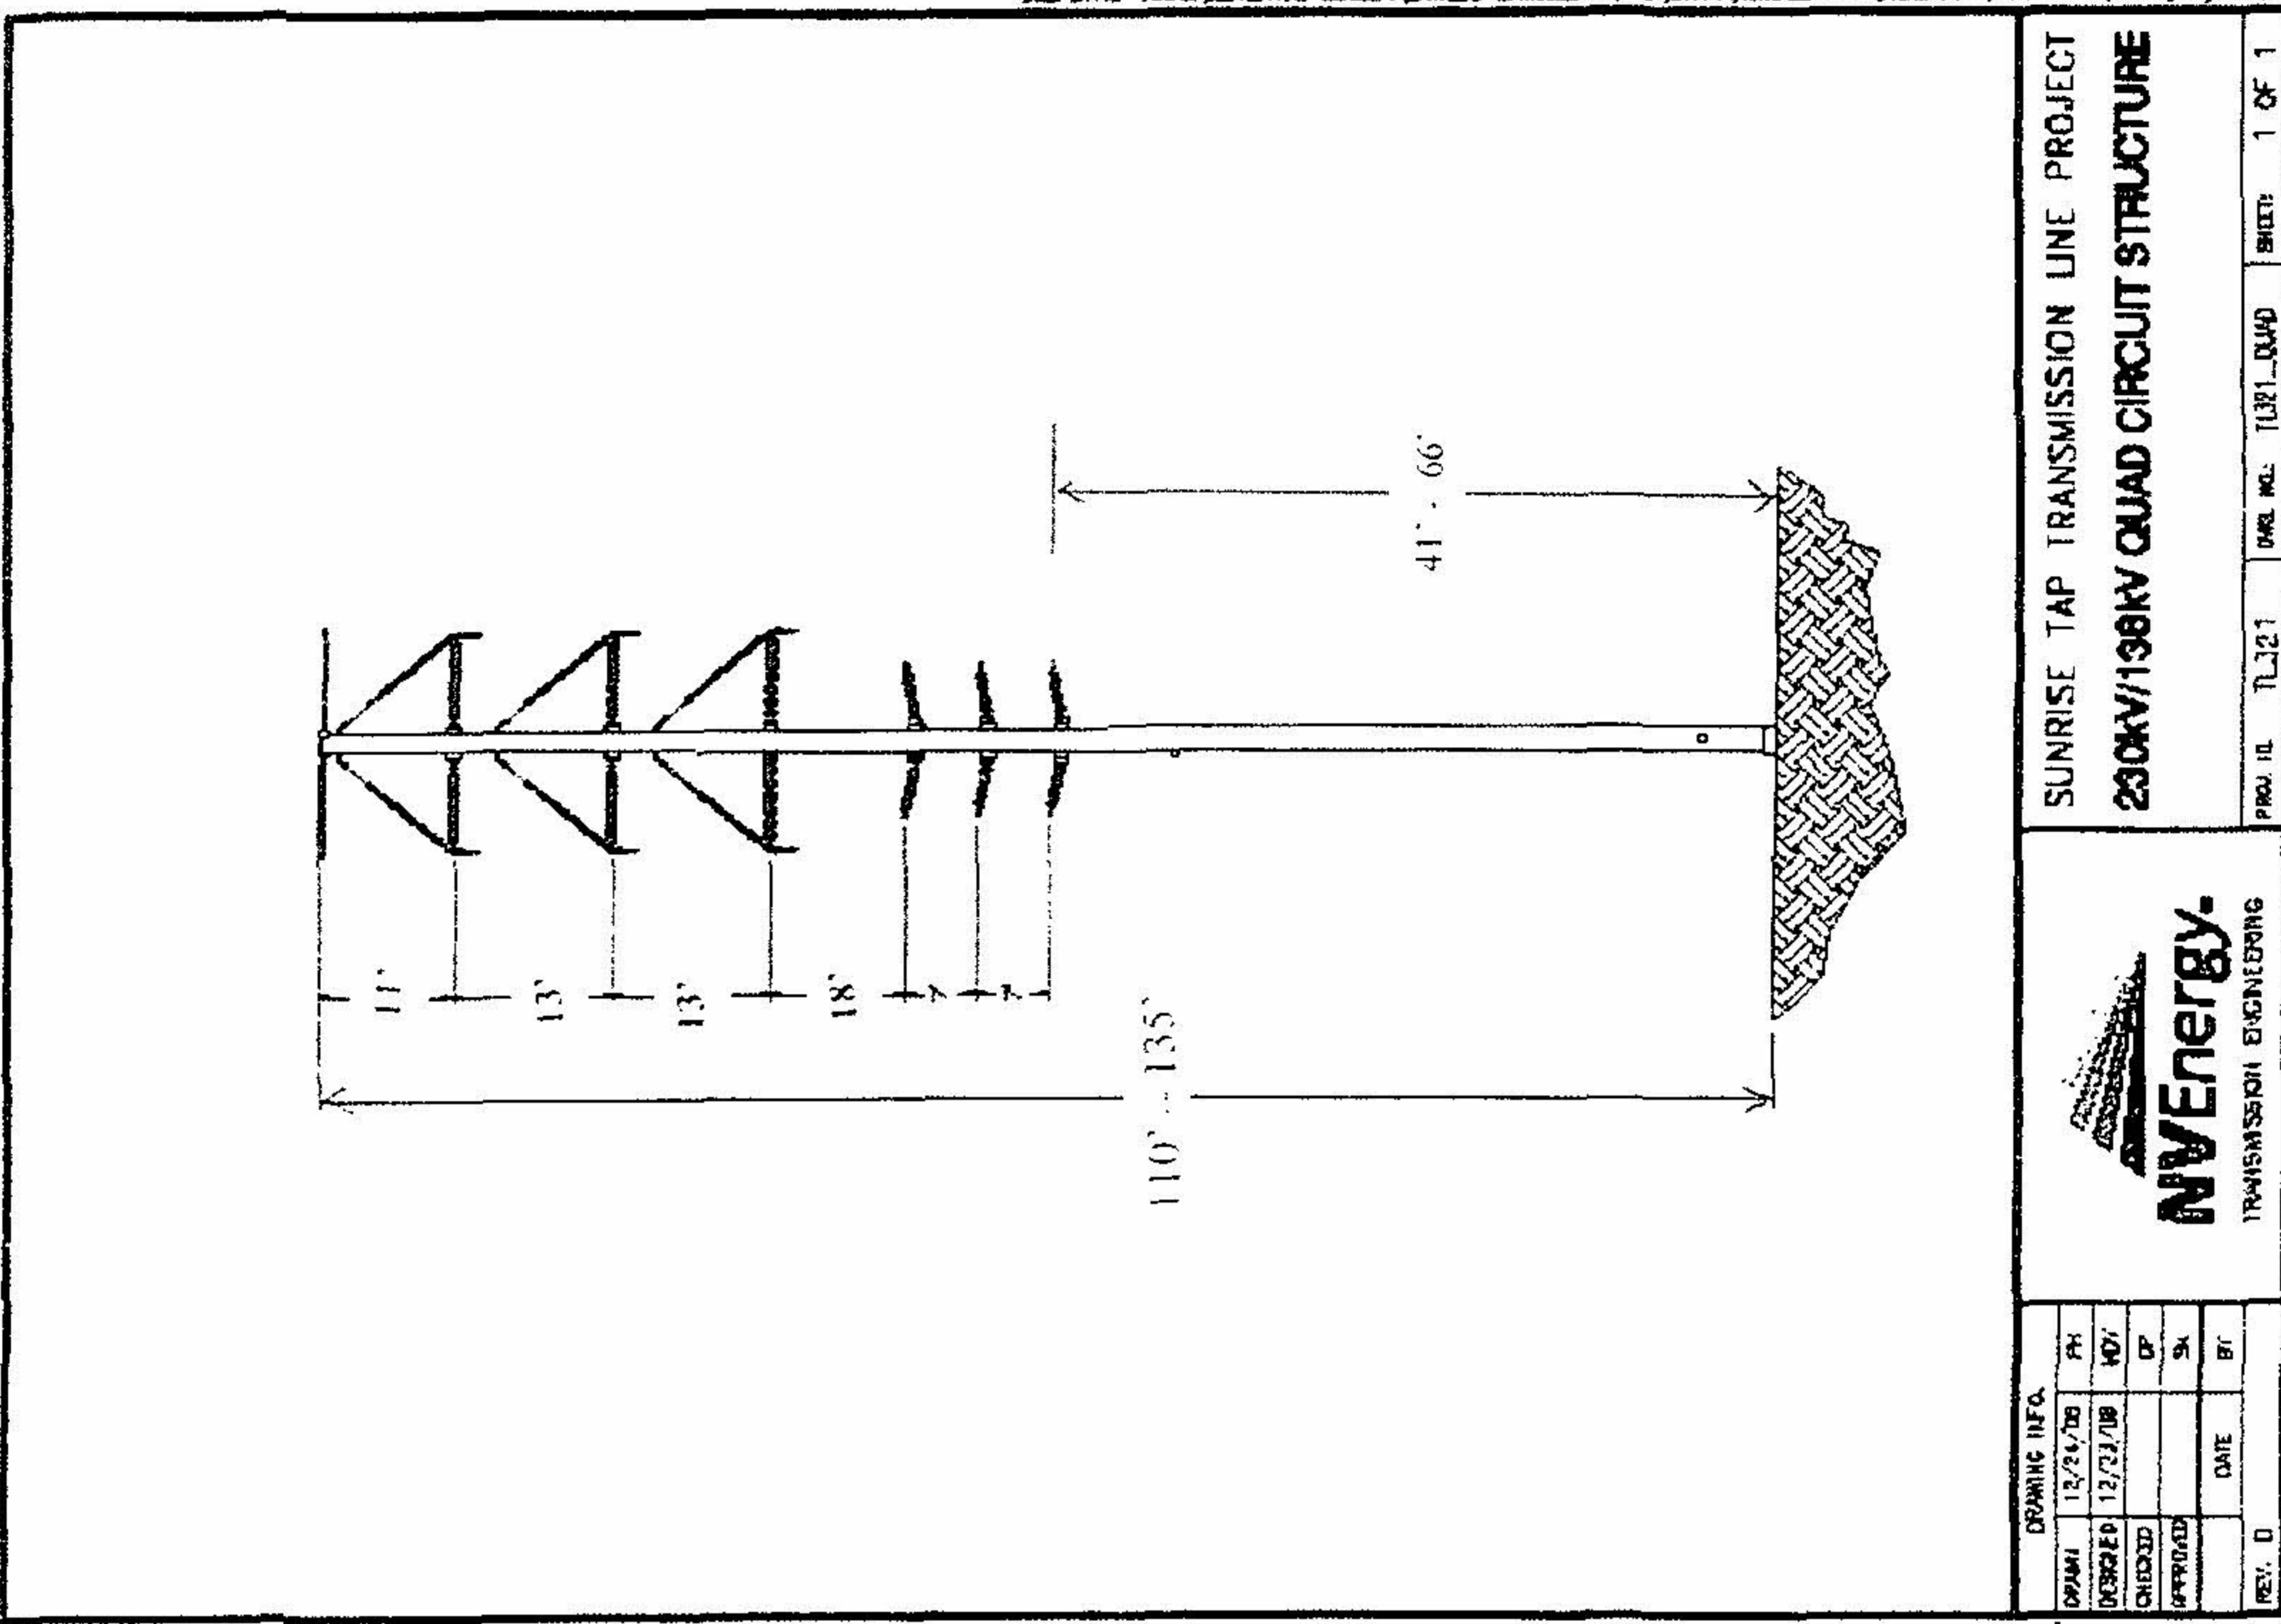

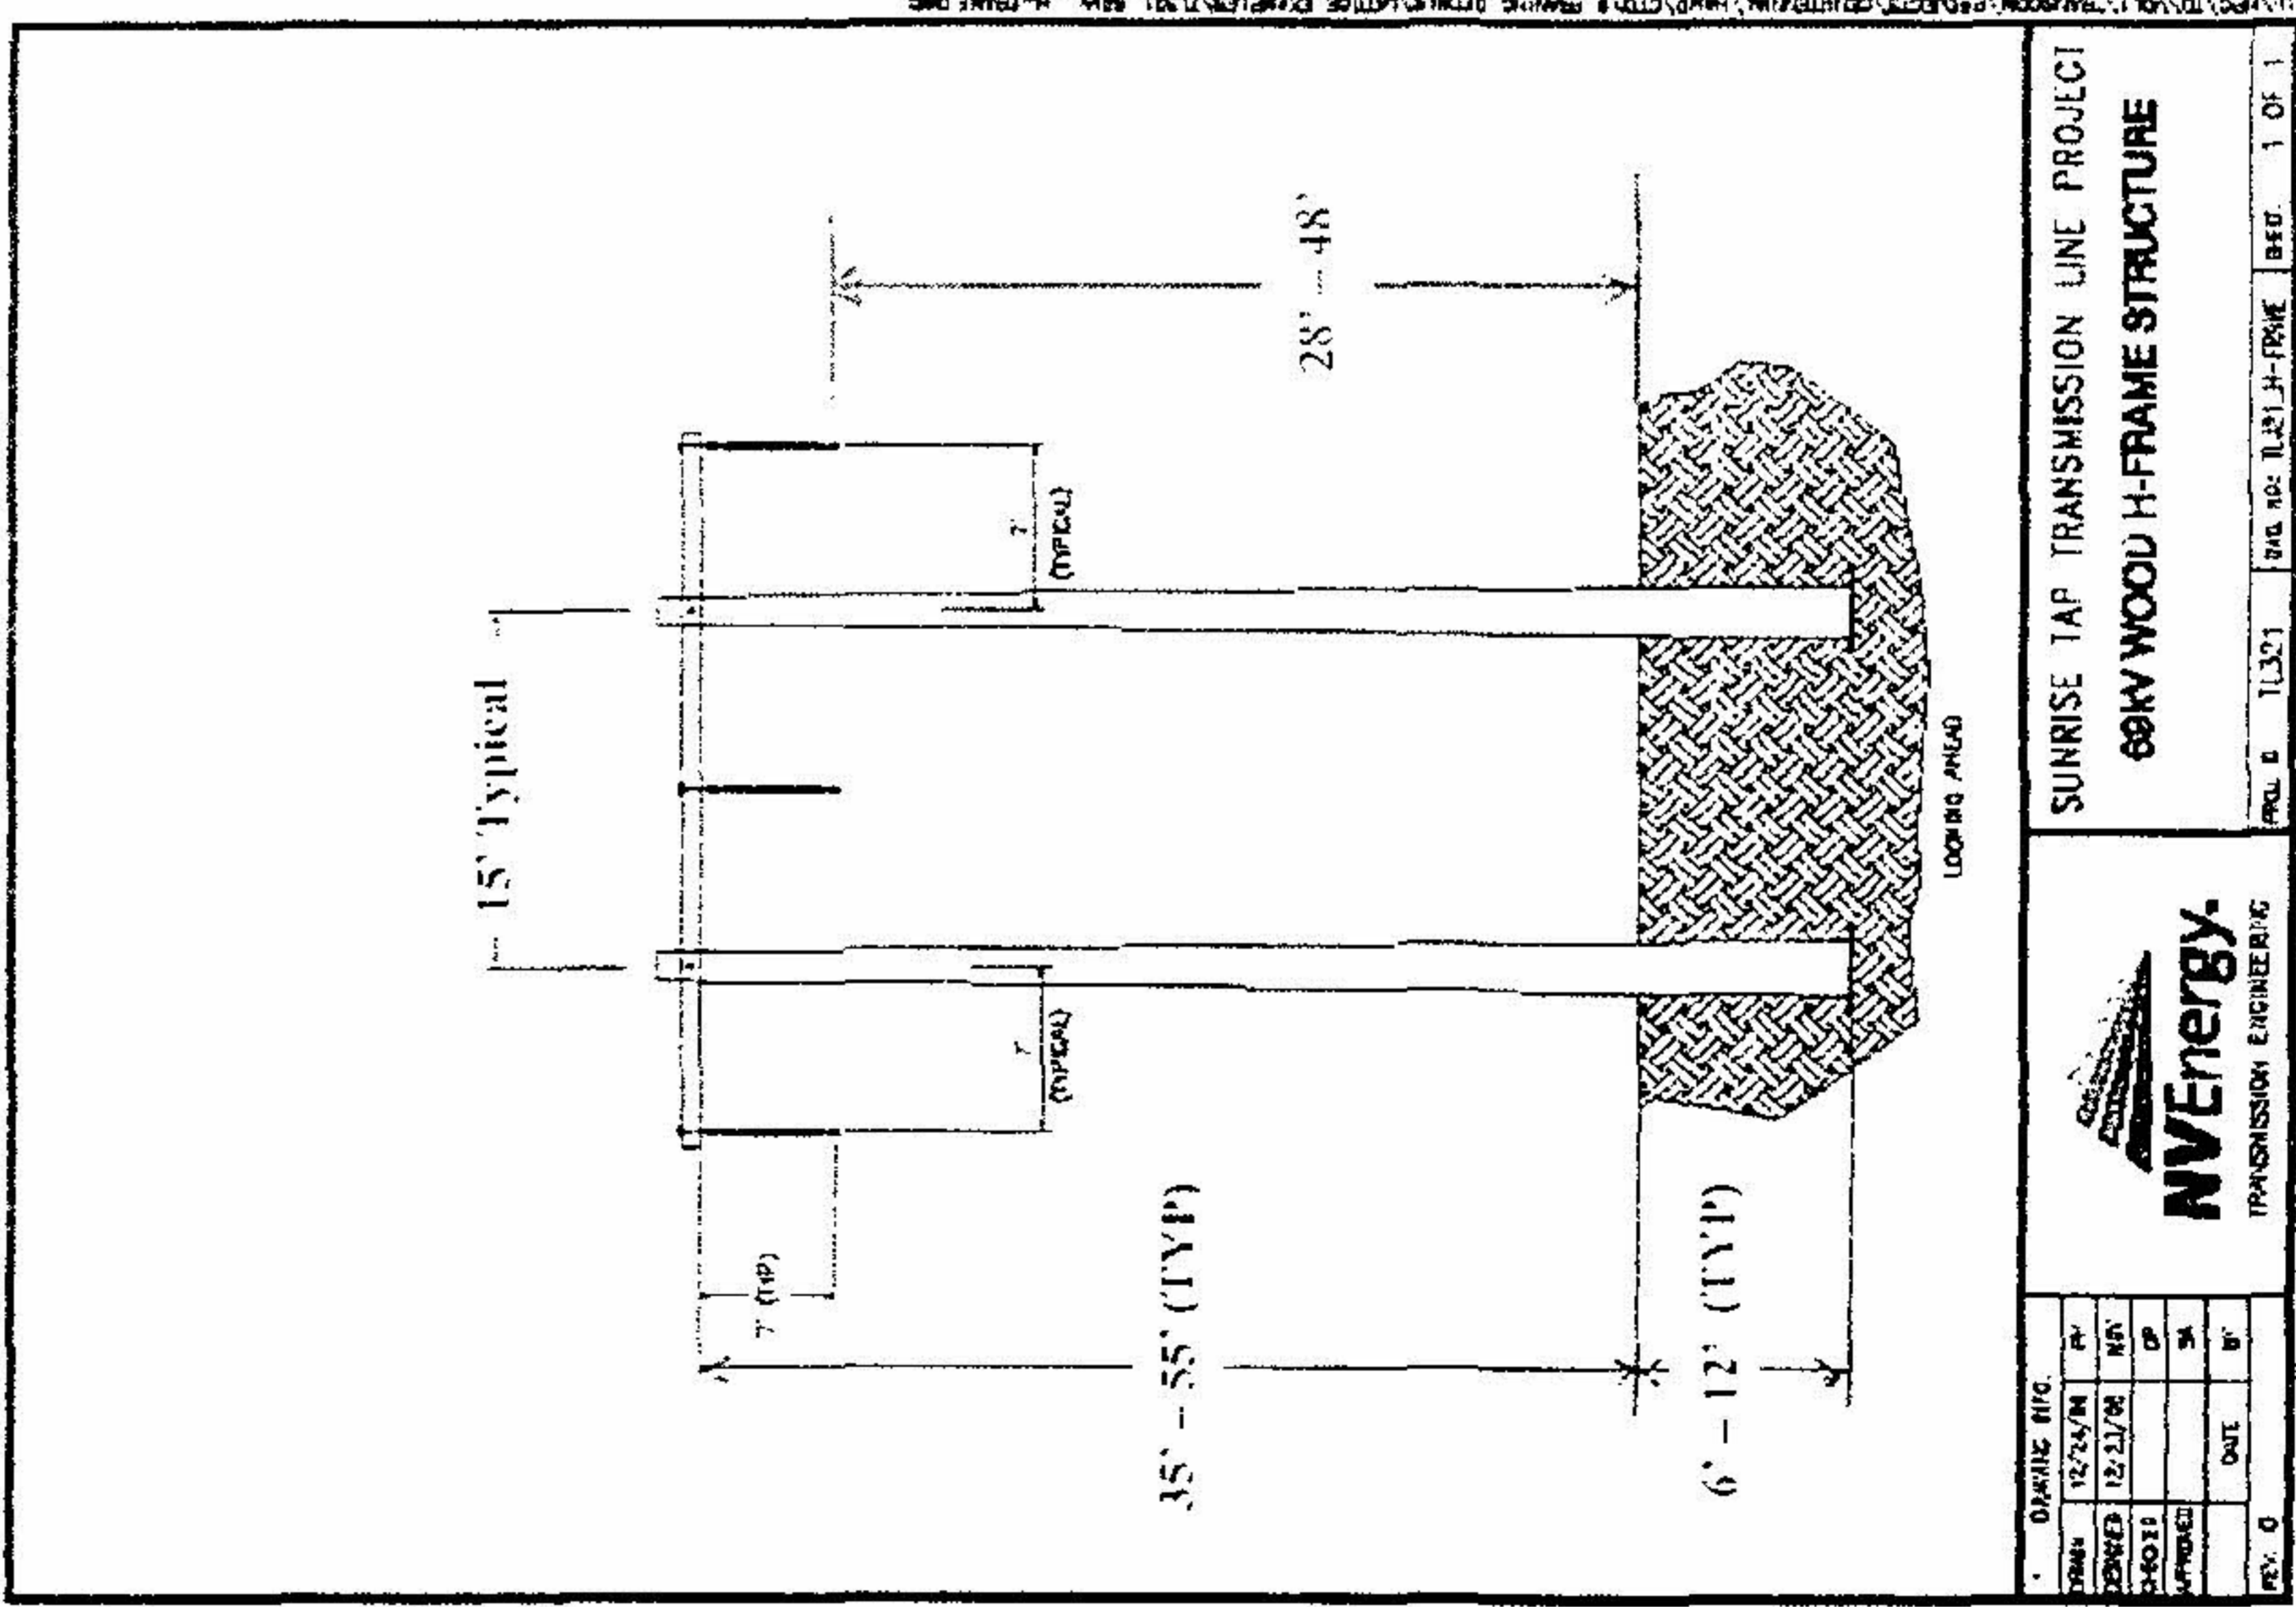

Before / After Structure Comparison

Note:

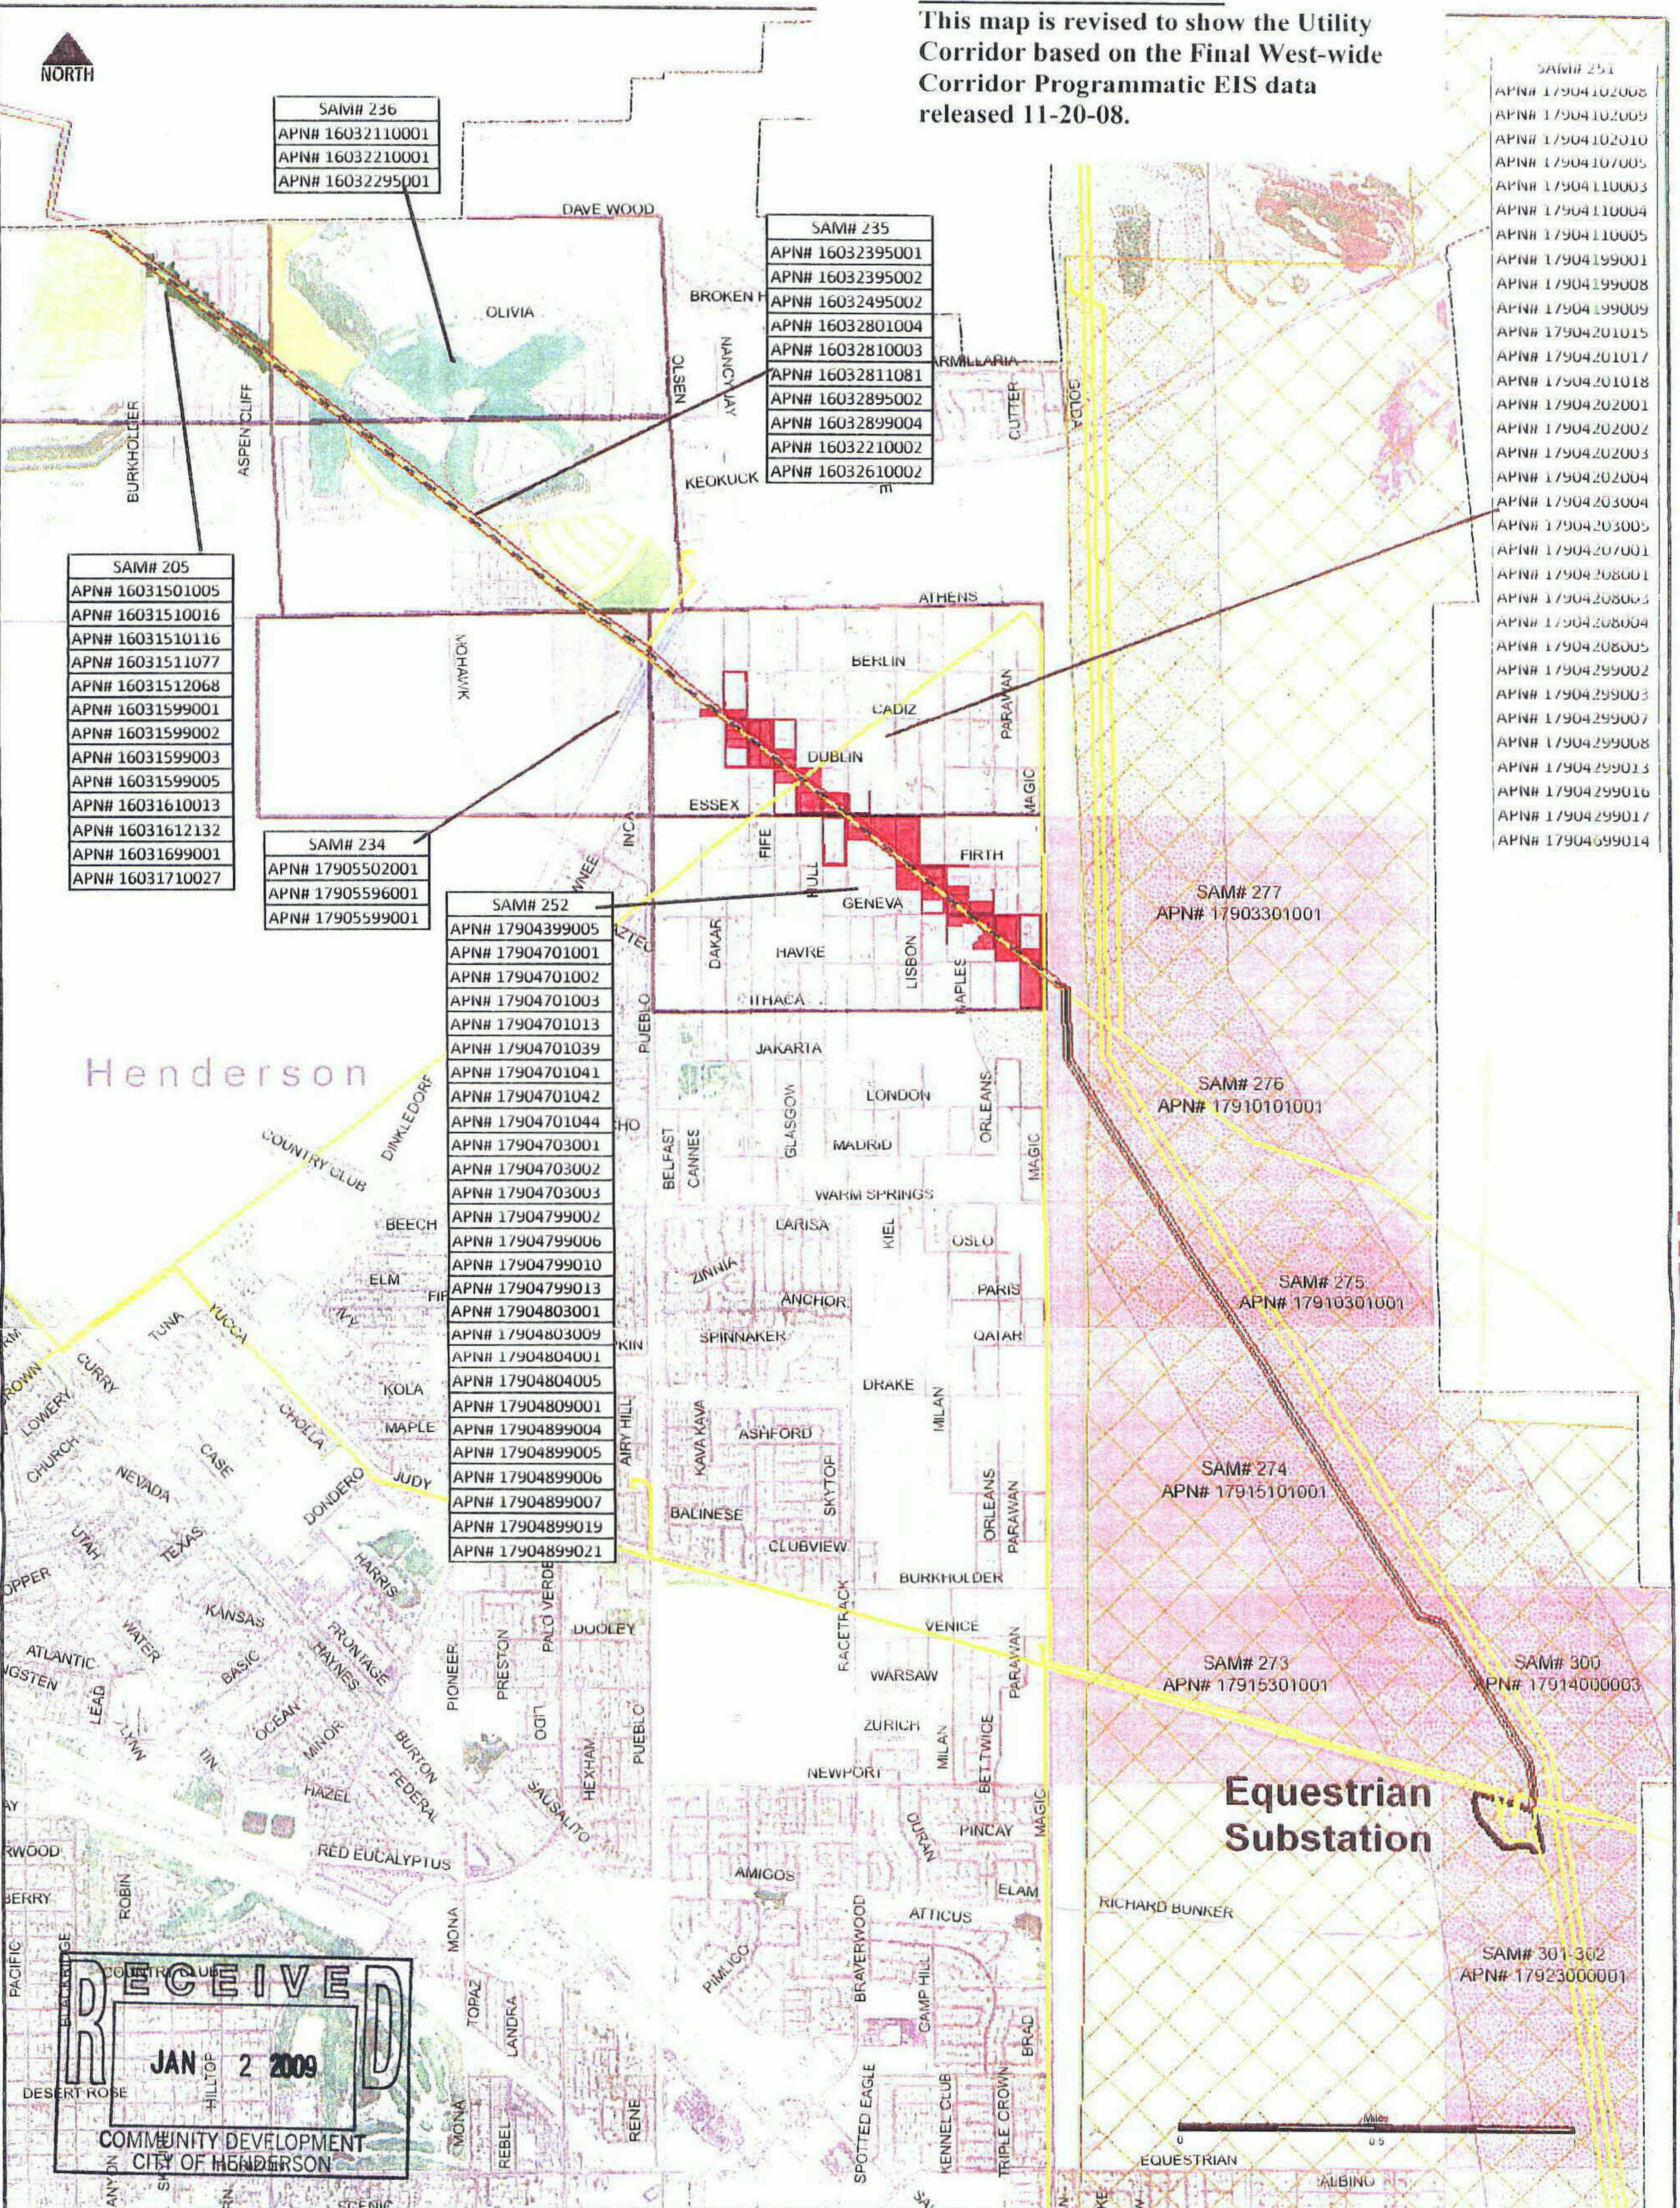

Not to Scale ---- Individual structure heights will vary
