The referenced houses were stocked with local domestically produced wallboard. Winroc Las Vegas utilizes local plants for their purchase of all wallboard products. CertainTeed Gypsum has a plant in Blue Diamond west of Las Vegas, and Georgia Pacific has a plant At Apex Northeast of Las Vegas. The raw materials come from various gypsum mines in the Southwestern U.S. No Winroc locations have purchased any foreign wallboard at any time. If you have any questions feel free to contact your Winroc salesperson or myself at 702-795-7128.

Sincerely,

To Our Valued Customers,

Thank you for your recent inquiry. This letter is in response to concerns that have been raised in the media about Chinese drywall reportedly imported into the U.S. by other companies. We would like to confirm that CertainTeed Gypsum has never imported Chinese drywall into the U.S. market.

CertainTeed Gypsum owns and operates several gypsum mines and wallboard plants in the U.S. and Canada. Our high quality drywall has been manufactured and marketed in North America for 80 years, and is made to our stringent quality specifications, as well as ASTM standards.

We appreciate your business and continued partnership with us. If you require additional information about our products, please feel free to call or e-mail Amy Lee, Manager of Marketing Communications, at (813) 286-3932 or amy.lee@saint-gobain.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Hawkins".
