

Jim,

I have boxed up some things you left behind at my house when you came to pick up the stuff I was storing for you.

It took a few days for me to realize you had gone through my house and took the photo of you and Pres. Bush along with the photos of the implosion of the Mapes.

I keep reading over and over the texts you sent to me. I won't reply to them any longer. I am tired of you saying that I am running from ~~memory~~ memory. Not true.

At this point in time I can't wait for the end of March to be here. I will be gone by then and in the meantime, I will hardly be here in Reno. I knew that hearing that you have moved on would affect me, but it has affected me more than I thought. By my getting out of here, I don't have to hear who you're dating these days. I don't have to hear about the text messages that this one in particular woman writes to others saying she's "going to be in Carson ☺ tonight" and "it is happening more and more these days". All of this is according to some high school kids. Whoever you're dating is telling the students at Galena and, of course, it gets back to me.

I have asked Tammy to please continue to be friends with you. She, John and their family adore you and they are the "real" friends you have. I have also asked her to not mention your name around me or tell me what's up with you. I get enough of that through kids and the news. At least I can turn the news off.

As I go through packing my things up and come across things you have given to me, I will put them aside and see that you get them too. Maybe you can give them to the one you're dating.

I only wish you well. I hope your State of the State is received well by the voters.

Good luck with your reelection. I truly do hope you win.
