

Harry Reid's

controlled congress destroys business and jobs in Nevada

When **Harry Reid's** controlled congress was elected in 2006, Nevada's unemployment rate was 4.4%. Today, Nevada's unemployment has more than tripled, soaring to an unbelievable 14.4% (21.6% if you count the Nevada folks who gave up looking for work) because of his bills that eliminate jobs and destroy small businesses. Ask any job creating small business owner what he thinks about **Harry Reid's** laws, taxes, and regulations that are destroying his business. Look at the empty store fronts that you see all over Las Vegas. Empty stores translate into lost jobs.

Sharron Angle will work to fix our stagnated economy and create the environment for job growth.

Harry Reid pushed through and voted for the failed \$787+ billion stimulus package, pushing the United States deeper in debt. Obama said this would prevent the unemployment rate from going over 8 percent. This bill is a total failure. It has failed to create the jobs and economic growth necessary to get Nevada families back to work - and **Harry Reid** has NO solution that will work. He wants to force another stimulus package that will put us deeper in debt. **Harry Reid** says his stimulus bill prevented millions of job losses...really??? Are you getting tired of empty promises and massive tax increases and debt? Think of all the debt **Harry Reid** has voted for and is leaving for us, our children and grandchildren.

On November 2nd, you can start to fix this, by voting for Sharron Angle.

Harry Reid says that you must re-elect him because of what he has done for Nevada. Well...let us see what he has really done.

1. Washington D.C. gets back \$6.17 for every dollar they send to Washington.
2. West Virginia gets back \$1.74 for every dollar they send to Washington.
3. Nevada gets back only \$0.73 for every dollar we send to Washington. With a Senator like Harry, who needs enemies?

Harry champions the "Cap-and-Trade" energy tax bill that will destroy even more Nevada jobs. This will be the largest tax increase in U.S. history taking more money out of our pockets and more taxes for businesses. It will prevent growth, stop jobs from being created, and raise prices for everyone.
